Southwestern Minnesota Area Public School
Attention: System Administrator

The Computer Man, Inc. and HP/Compaq have partnered to bring schools in the area special pricing through the Western States Contracting Alliance (WSCA) program. WSCA is a collective buying program, through which K-12 schools, Higher Education Institutions and Government agencies can purchase products at a significant discount over regular pricing. In addition to the great WSCA pricing that we can offer, HP/Compaq highlights some products with special "Big Deal" pricing. This means even more great products at an exceptional price! All of the products that are available through WSCA are from HP/Compaq's current product lineup and carry the standard HP/Compaq warranty, which is 3 years onsite on D530 desktop PC's.

We would like to take this opportunity to inform you that you qualify for this pricing and we would like to help you use this to your advantage. We have found that many schools do not realize that this is available and have settled for higher prices or lesser service. We would like to help you create a successful learning environment using HP/Compaq equipment. Pricing is available at <http://www.hp.com/go/gov> and the special "Big Deal" products are available via email or fax upon request.

The Computer Man, Inc. can add additional installation and service options to the already great offerings that are available. All of our sales and technical staff members are certified and current on nearly all technologies that you need to build a successful network. With all of our technicians carrying the CompTIA A+ Certified Technician certification and having a Microsoft Systems Engineer on staff, we are ready to design a successful network, provide break/fix support or merely provide phone support as needed. We have over 50 years combined experience in the computer industry.

We would appreciate the opportunity to assist you in meeting all of your technology needs. You will find that we are ready to help you succeed. Please contact Brian Hart or Matt Terfehr for further details on the WSCA program or The Computer Man, Inc.'s offerings.

Best regards,

Matt Terfehr
Vice President
The Computer Man, Inc.
